## confidential information acquisition (cia) service...

If you would prefer the fact that you are job hunting to be confidential, ask about our cia service - we act as a cut off between you and potential employers.

## students...

Register your email address with us for free to receive priority notice of traineeships, holiday placements and free places at law courses throughout Scotland. We aim to make [www.legalpeople.info](http://www.legalpeople.info) the central point of contact for students and the profession.

- The benefits are plain:-
- Everyone will save time and money. *No need for hundreds of students to produce hundreds of circular letters and for hundreds of solicitors to respond to them.*
  - For firms with projects that need doing, but their existing staff are already too busy, a Law student on holiday placement could be their answer.
  - Applying directly to employers saves them £'000s in Agency fees. To reflect this saving, some employers offer a signing-on bonus.
  - If you join a firm for a holiday placement and it works for you both, might that lead to a Traineeship?
